- 7. Treaded Footwell
- 8. Foot Dome Therapy
- 9. Footwell Drain
- 10. DuoTone™ Accents
- 11. TriLayer™ Shell with ProTegrity™
- 12. Water Feature

PROUDLY MADE IN AMERICA

SPECIAL EDITION SPAS ARE MADE BY SARATOGA SPAS® IN THE USA. Sourced In America provides you, the consumer, with high quality competitively priced consumer goods from U.S. manufacturers. Many of the innovations and technologies associated with these products originated from these companies right here in the United States. Meanwhile our program lowers your associated freight costs, increasing your purchasing dollar for similar goods while improving your access to parts and warranty services. Supporting your local, regional and national economies through Sourced In America is just the bonus. When purchasing a leisure product, make sure to ask if the product and its components are manufactured and Sourced In America.

YOUR AUTHORIZED SPECIAL EDITION DEALER IS:

All sizes are approximate. Saratoga Spa and Bath® Co., Inc reserves the right to make changes in product characteristics, standard equipment supplied or available at any time without notice. Not all features are available on all models. International 50 Hz models may vary in specifications and features. Models with international specifications are only available through international distributors. All spas must be wired in compliance with owners manual. Power Massage® is a patented feature of Saratoga Spa and Bath® Co., Inc (4953240) (5086595) (5752300) (6351856) (6185757) (6182303) (D431303) (5067228) (5010699) (CFE#4860392) (6182303) Entertainment systems and other optional features are not offered with the UL® listing or standard warranty and are not available on all models. See your Saratoga Spa® dealer for details.

WARNING: The consumer product safety commission has stated that water temperature in a spa or hot tub should not exceed 104° F. Immersion in water in excess of 104° could be hazardous to your health. Children, aged persons, persons having medical problems and pregnant women should consult their physicians before using a spa or hot tub. Spas or hot tubs should not be used by persons under the influence of alcohol or by persons taking medications that cause drowsiness.

Hydrotherapy®
Saratoga Spa® Company

SPECIAL EDITION FEATURES & OPTIONS

RELAX STREAM™ WATER FEATURE

A stream of cascading water enhances the spa's atmosphere. A standard feature on most Special Edition models.

MULTIZONE™ OZONE GENERATOR

The Special Edition Models use the MultiZone™ Ozone System to create water that provides a more comfortable soaking experience.

SARATOGA LED LIGHTING SYSTEM

This LED System uses key locations throughout the spa, offering an array of bright digital colors and sequences to increase your spa use enjoyment. A standard feature on most Special Edition models.

DUOTONE™ JET PACKAGE

Duotone™ Jet accents are standard features on the Special Edition Spas Line highlighting the spa's appearance.

SARATOGA SOUNDS SYSTEM®

Enjoy music in the comfort of your spa with our optional Bluetooth Streaming and Dual Speaker System.

THERMAL BOND™ INSULATION SYSTEM

The Thermal Bond™ Insulation System is standard on all models and utilizes three key components in providing efficient heat retention and lower operating costs. First and foremost is the spa cover that seals in the heat from the top. Secondly we use the Thermal Bond™ Wrap Insulation to retain warm air that is created inside the spa cabinet. Thirdly, the sealed base helps keep warm air in and cold air out of the bottom of the spa cabinet. These three components allow you to be soaking in a spa that is designed to be ready when you are.

THERMAL BOND™ FULL FOAM

Thermal Bond™ Full Foam is designed as an optional upgrade insulation. This system provides a higher level of heat retention inside the spa cabinet.

MULTICLEAN™ SYSTEM

All Special Edition Spas offer the MultiClean™ System. This systems provides circulation of thousands of gallons of water through the skimmer, then removes debris through the Microban® Filter cartridges, then exposes containments to the MultiZone™ Ozone System before returning back into the spa. This combination of skimming, filtering and ozone injection provides a comfortable soaking atmosphere.

MULTIWEATHER™ EXTERIOR

The MultiWeather™ exterior is designed as a low maintenance and durable product. It is designed for easy care while continuing to look great for years to come.
